

John Leckrone magnum opus

Part 6

(Source: <https://www.facebook.com/john.leckrone.16/posts/1062477140861445>)

This is magnum opus part 6.

Public, judicial and constructive notice of facts and claims for File No. 14-000239-DE at Manistee County Probate Court, the physical location, not the corporation.

The honorable John McCotter Leckrone, acting as the claimant, executor and beneficiary, a living man with status and standing on the land and not lost at sea or dead continues to retain all unalienable rights and waives none whether statutory or procedural or for any reason whatsoever. All presumptions without evidence are yet again rebutted and claimant again establishes his common law court of record article three court where the magistrate trustee is separate from the tribunal and all actions involve only men and women under oath or affirmation of facts filed under the pains and penalties of perjury. No personage, barratry or judicial discretion is granted and the claimant again holds the public trustee to his oath of office whether it is on file on the public record or not. All parties have equal footing as men and women and are responsible for their actions even if those actions are a lack of any action.

Claimant has assumed his legitimate role as the sole representative for the estate of Karen Faye Leckrone, now deceased and by extension the estate of her husband, John Kirk Leckrone, claimants father which she had inherited before her death upon his death. This is claimants right by right of survivorship and extensive and meticulously documented evidence. Additional evidence also includes claimants' mother's original will filed into the public record in Manistee County and filed into this case as evidence as well in the form of a certified copy of that will. Claimant would like to remind all parties that the original document is also on file at this same location in a previous court case and thus is in the possession of the public trustee Thomas N. Brunner. Also included are all unrebutted past claims filed into evidence under the pains and penalties of perjury that claimant has submitted as evidence.

All previous claims filed under the pains and penalties of perjury into this court of record by claimant continue to remain unchallenged and unrebutted by John M. Grogan, James R. Modrall, Patrick Looney and his attorney Mark Quinn and the MANISTEE COUNTY TREASURER Rachel Nelson. Those claims stand as truth in commerce, equity and in the common law. Claimant again reminds all other parties that this is a replevin action as well as a trover action for the return of all of claimants real and personal and proprietary property unlawfully converted by various third parties to include the defendant acting as petitioner Patrick Looney through his attorney Mark Quinn, Rachel Nelson acting as the Treasurer for the County of Manistee municipal corporation and it's 11 other branches in the business of providing governmental services and Honor Bank via it's attorney's John M. Grogan and James R. Modrall III.

The origin of this controversy has its roots in corporations masquerading as legitimate governments and BAR attorney's using legalese, fraudulent conveyance of language, private acts, deceptive trade practices and banking fraud to pillage and plunder people for profit. Claimant fully comprehends the criminal nature of this system but does not understand it. The claimant continues to expose this corruption on the record to include in this series of responses and claims. The right to refuse to associate with corporations and the mistaken belief that claimant is somehow a member of these organisations as an employee, transmitting utility or other entity subject to these corporations through press ganging, unilateral contracts by dead entities and their employees with no mutual consideration for the claimant is the subject of this controversy.

The claimant filed his claims on this matter with regards to real properties into the record several years ago and those claims continue to stand unrebutted to this day by the local taxing agents and other people. The claimant's cause of action has been to state numerous claims for harm, injury, damage and loss in the form of an affidavit and filed under the pains and penalties of perjury. The claimant believes there has been gross negligence and carelessness and lack of due diligence and candor for what claimant perceives to be unjust enrichment by third parties based on unrebutted facts entered into evidence again and again.

The claimant has included a long and detailed statement of numerous claims to which the claimant is entitled to relief. The claimant has demanded relief for the numerous trespasses against the man and the man's person and property. All other parties were given a multitude of opportunities to object or challenge these claims and no man, woman or PERSON (read corporation) has done so. The claimant's rights to property is universal, fundamental and unalienable and claimant is entitled to remedy and redress for trespass and grievances and the infliction of emotional distress and relief.

The claimant calls for that relief to be granted so that there may be accord and satisfaction. Currently this is a mixed war between corporations and their agents acting with bad faith using patents, trademarks and copyrights against people who know nothing about these things and how these hidden adherence contracts are used to exploit people for profit. This is an opportunity to cure this controversy by all parties who have trespassed against the claimant and claimant's property held in trust. The claimant had a reasonable cause to suspect problems in the original case several years ago and chose not to participate in the fraud due to his discovery. The claimant was forced to research and make inquiries into the matter over the next several years. This involved a significant amount of due diligence and deep research. Because of this the claimant was able to discover the facts of a multitude of unconscionable contracts and the basis behind the slave system each of us are forced to exist in.

The claimant has assumed the position of executor and beneficiary which by right was claimants right to take. The claimant now reminds all parties that this matter is about settling the estate through the use of a private administrative process while at the same time doing so with honesty, integrity and full disclosure and mutual consideration to all parties. The claimants goal is to take possession of all assets in the trust that have been set aside for the claimant by Karen Faye Leckrone, now deceased and to honor any legitimate claims against that trust as long as

there is legitimate supporting evidence provided by any man or woman making such a claim and filed under the pains and penalties of perjury. Karen chose to give the claimant all assets in the trust through her actions and deeds and the act of creating a trust in the form of a will. The assets have been converted by numerous third parties as evidenced by facts presented by the claimant which have not been rebutted. Claimant now calls for those assets to be passed on to the beneficiary or for compensation should that not be an option. These real assets are to be transferred to the claimant who has been denied his property under the color of law and trespasses.

The questions claimant asked which claimant patiently waited for responses to were never replied to. Claimant again asks for the answers to these most important questions. These questions are relevant to the closure of the estate trust. Claimant again reminds all parties that there is a fiduciary duty to respond to these questions.

1. Who is in possession of the allodial title, fee simple, first title deed, letters patent, security instrument land patents on all real properties previously owned by claimants parents which claimant now asks to be returned to the trust?
2. Who signs off on these documents that at one time were signed off on by the President of the United States corporation and managed by the Bureau of Land Management?
3. Why do corporations through their agents which control so many natural resources hinder and usually deny people their right to lawful possession of real and personal property belonging to them?
4. Why is there so much deception in banking and in the courts?
5. Why is it so complicated and not general knowledge how real estate transactions and the transfer of property actually work?
6. By what right do corporations have to treat owners and heirs of real property as tenants rather than land owners through the use of undisclosed unilateral contracts with no full disclosure of all pertinent facts and mutual consideration toward the living man or woman?
7. Why are these same corporations through their agents not assisting people to make the transfer of real property easy to comprehend and follow through on? All requirements of a valid contract include full disclosure, mutual consideration, a "meeting of the minds" (impossible for a dead entity corporation with a corporate charter to have) and two wet ink autographs or signatures of contracting parties (again impossible for a piece of paper with ink to do).
8. The prefix "re" in words like "repayment" means "again" thus "repayment" means "pay again". Banks do not loan money and as already stated FEDERAL RESERVE NOTES are negotiable debt instruments and a liability to the UNITED STATES corporation evidenced by 12 United States Code 411. Even the word payment has relevance as it simply means the fulfillment of a promise

or the performance of an agreement and the discharge of a debt or liability by the delivery of money or other value by the debtor to the creditor. One cannot pay a debt with a debt note. One can only discharge the debt. Since the public trustee founded a bank and was that bank's attorney the trustee Thomas N. Brunner knows that as soon as the security instrument was sold by the bank that the debt was extinguished and all that remained was an unconscionable contract. This is evidenced by the Manistee News Advocate dated Friday April 27, 2018 and the article is titled "Brunner seeks re-election as Manistee County Probate Judge. The quote reads "In 1984, Brunner was an organizer, founder and attorney for the creation of a new national bank named Benzie National Bank, later becoming known as West Michigan Bank and Trust. Brunner served on the bank's board of directors from its inception to December 2006, when he resigned from the board to take his position as newly elected Manistee County probate judge."

9. The claimant's parents were issuers of the credit and security instruments which were then monetized by the bank for profit. The claimants parents life force paid for these properties through years of hard work. All actions based on fraud are void from the beginning and since no original instruments were filed in the original case or in this case by anyone other than the claimant that is fraud upon the court. All the other parties have provided are "certified copies". With no original instrument there can be no holder in due course. The numerous documents filed by below named parties have all had this most egregious defect. Patrick Looney through his attorney Mark Quinn, James R. Modrall III and John M. Grogan and the County of Manistee treasurer Rachel Nelson or her predecessor Russ Pomeroy could not then nor can they now file under the pains and penalties of perjury that a single debt was ever owed or is even now owed. Why was their paperwork permitted in these administrative tribunal courts to begin with?

10. We are taught that stealing is wrong and when caught doing so know that there are consequences for doing so. We are also taught that slavery and press ganging is wrong. Bearing false witness against others is another trespass. Where do corporations and their agents get the right to violate these basic tenets of our society for profit? Certainly not from their victims. Most people do no harm and seek only peace and fulfillment and the pursuit of their personal interests yet they are harassed and pillaged on a regular basis for corporate employee profits.

11. How has MERS played into this scam with regards to this particular case?

12. The use of patents, trademarks and copyrights by corporations are being used to control people. By what right do the holders of these things have to use these tools to rule over people like dictators?

13. Why are there no legitimate contracts presented by the corporations to the people to consent or not to consent to the terms of the contract and to being ruled over? Certainly the founders of the original republic did not permit this in their original documents.

14. How are people supposed to be aware of a contract if they are never informed that it even exists in the form of "offer and acceptance" with hidden strings attached?

15. Does anyone named here honestly believe any of this is moral?

16. Does anyone really want to live in a world where the simple principle of "do no harm" does not apply to them or their family and friends? When one of us is trespassed upon and can be enslaved, all of us are potential victims of the same.

17. What is the trustees reasonable administrative fee and any other reasonable fees to grant claimant the fee simple allodial title to all claimed properties and to whom will the lawful money in the form of gold or silver go to?

Property claims begin with the property generally recognized as 12391 Lynn Street, Bear Lake Michigan. It has been described as VILLAGE OF BEAR LAKE S 29.5 FT OF W 66 FT OF LOT 5 BLOCK C consisting of a building with basement and bathroom as well as soil and land and earth and all water and mineral rights and rights to the air around and above and anything passing through it. For tax purposes the PARCEL DETAIL: 51-32-221-705-09. The claimant will refer to this real property as the flower shop. This real property is the real property that led to the current action and claims and opening of the estate.

The claimant has received from the defendant's attorney a forfeiture notice with multiple faults to which claimant will now address. Based on evidence provided by the defendant there was a balance owed of \$7,500 plus interest of 8.69% to the holder of the note of which defendant appears to have purchased the rights to for the sum of \$500.00 on March 21, 2017 but has not filed a claim under the pains and penalties of perjury doing so that any debt is owed. The final debt payment was owed on December 17, 2017 based on the paperwork filed which seems to match the claimants records. Additionally once a debt is sold it is considered to be discharged to the original party. Neither the claimant or the defendant were party to the original contract.

At the time of purchasing the rights to the contract the defendant failed to follow even the most basic of legal and lawful principles to allow claimant to cure any default at that time. Instead the defendant took upon his own free will to criminally trespass on claimants property under the mistaken assumption that he now owned claimants property. Only now in November of 2020 does Patrick Looney come forward years later with an eviction notice and demand to cure and only after he was unable to sell claimants property due to having only minimal interest in claimants property as it was still deeded in claimants mothers name.

To add to this egregious trespass the defendant, the man Patrick Looney acting of his own free will, stole personal property being stored in claimants real property and owned by claimant. These items included fine art, pottery, china, antiques, collectibles, claimants deceased parents brand new still in factory sealed boxes wedding china from the 1960's the claimant intended to keep, helmets and other items used by the Bear Lake Odd Fellows lodge members, antique oak showcases and other showcases, clocks and clock parts, furniture, tools, several works of art from claimants uncle who served in world war II, items belonging to claimants father and other personal items. These items had significant value far in excess of the value of the property now the defendant is demanding to be compensated for in this dispute.

Other issues are taxes, repairs and insurance. The tax issue has already been addressed by the claimant and ignored by the Manistee County Treasurer Rachel Nelson who has been receiving these claims. This makes it a default judgement in claimants favor due to her failure to respond. Repairs were never authorized by claimant and were done strictly for the benefit of the trespasser Patrick Looney who did not even include a single shred of evidence to support this like a bill from a plumber or list of supplies purchased. If these issues are not enough we must also consider the rental value of claimants real property which is easily \$400 per month. The defendant Patrick Looney has been using said property for personal reasons without the owners and claimants consent and had no legitimate right to be there.

For the sake of simplicity we will simply say 36 -months ie. 3 years starting in November of 2017 and ending November 2020 although the defendant has actually been using the property longer. That sum of \$400.00 x 36 months comes to \$14,400 plus the insurance claimant would have required a renter to have to be there. The defendant is asking for compensation for insurance which the claimant considers to be ludicrous. This rental value owed to the claimant exceeds everything asked for by the defendant through his attorney in the most recent correspondence excluding the tax issue. Claimant has just received more evidence of fraud purported to have come from the Manistee County Treasurer to which claimant will address later.

The above mentioned rent is before taking into consideration the extensive value of claimants property being stored there which the defendant Patrick Looney took no due care and diligence to keep and protect. This is criminal negligence, felony theft and criminal trespassing as claimant has repeatedly stated for the record. These claims have not been responded to by the defendant Patrick Looney or his attorney. Silence is consent in commerce and in the common law. Claimant had warned Patrick Looney verbally on the phone to not trespass on his property when the defendant called him in early 2017. Additionally the defendant made no mention of his purchase of the contract at the time and the claimant only found out about this after the paperwork was sent to him after the original court case was filed on the orders of the trustee Thomas N. Brunner. This court case originated only because the defendant was unable to sell claimants property. Claimant is entitled to set off and recoupment on this matter.

The return of claimants real and personal property is legally and lawfully called for or other compensation should the defendant not be able to recover claimants personal property. Claimant again reminds all parties of the efforts of the defendant's attorney in filing paperwork that did not qualify as evidence. In so doing Mark Quinn showed gross negligence which the claimant strongly suspects was merely more fraud to justify the crime of attempted theft of real property without due process. The attorney Mark Quinn and his client Patrick Looney were attempting to use illusion and paperwork that was not theirs to justify their criminal actions. These actions alone void all implied rights defendant Patrick Looney may have been entitled per both common law courts of record and in courts of equity. It appears the defendant's had attempted to sell the property for \$25,000 this year.

Next we have a series of properties of which attorney's James R. Modrall III and John M. Grogan participated. These properties described in court documents are as follows.

The first is Lot 8, Block H, Village of Bear Lake, Manistee County MI. The claimant will refer to this real property as his home and is generally known as 12287 Lynn Street, Bear Lake Michigan. It consisted of a 4 bedroom home with finished basement, kitchen, living room, side room and detached garage. This real property included earth, soil and land, air, mineral and water rights. At the time it was given a gross value of \$46,600 and sold for \$26,000 according to public records. An employee at Honor Bank hired a man to come in and remove all of the claimants property. This included the ashes of claimant's deceased mother which were to be buried next to the claimant's father, two antique stacked oak bookcases with hundreds of books, antique furniture to include table and chairs, oak storage cabinet, dressers, beds, an antique style stove, 33 RPM records, antique oriental rugs, important personal papers which cannot be replaced, china, tv, movies, a very large selection of the Bear Lake Odd Fellows clothing with significant historical and monetary value, tools, bicycles, boat, metal filing cabinets, fishing poles and tackle boxes and other smalls too numerous to mention.

The next property is W 55ac of N1/2 of NW1/4, Sec 9, T32N, R15W, Potter Road. On the tax rolls it is referred to as PARCEL DETAIL: 51-02-009-200-02 with a physical address generally known as 8179 Potter Road in Bear Lake Michigan. The claimant will refer to this real property as the claimant's farm consisting of 55 acres of soil and land and earth, air, mineral and water rights to include oil, an antique barn and also a pole building claimant had built in 1988. The farmhouse on the property was destroyed by fire a few years ago and had dated to the late 1800's. At the time it was given a gross value of \$89,200.

The next property is S 365' of SE 1/4 of NE1/2 (Norconk Road) in the court documents filed by the above mentioned attorneys. For tax purposes it is PARCEL DETAIL: 51-12-028-175-20 with a physical address generally known as 8964 Norconk Road in Bear Lake Michigan. Claimant will refer to the property as the physical location for his fathers Statewide Towing business consisting of soil and land and earth, air, mineral and water rights and a large building. At the time it was given a gross value of \$71,200.

All three properties plus several trucks were listed on the paperwork originally filed into this estate settlement with a value of \$208,000. When the claimant saw the paperwork attorney's James R. Modrall III and John M. Grogan filed into the court case claimant knew the court case was over in claimants favor regardless of the opinion of the court and for the following reasons which cannot be disputed.

1. No original documents were filed into the case, only copies.
2. Even if the documents had been original documents, the name of the primary debtor was the claimant's deceased father. Claimant was present when his mother Karen Faye Leckrone discharged the debts by creating new "loans" to pay the notes off that were being used as evidence by James R. Modrall III and John M Grogan.
3. As the trustee and ministerial administrator knows due to having been party to founding a bank and acting as it's attorney, banks do not loan money. They purchase promissory notes from

the applicant who is lied to that he or she is borrowing money and selling these notes into the market which discharges the original debt. This is why there are no original documents used because they have been sold off. My mothers signature was monetized as was my fathers. Additionally Honor Bank was able to use that for even more profits through the use of fractional reserve banking.

4. Banks use deceptive trade practices which violate the Fair Debt Collection Practices Act, Pub. L. 95-109; 91 Stat. 874, codified as 15 U.S.C. § 1692 –1692p, approved on September 20, 1977. This act is a consumer protection amendment, establishing legal protection from abusive debt collection practices, to the Consumer Credit Protection Act, as Title VIII of that Act. The long title is: An act to amend the Consumer Credit Protection Act to prohibit abusive practices by debt collectors.

5. Only men and women can own property, corporations cannot. This entire monetary system is a debt based consumer system with fraud at it's basic foundation. As already stated repeatedly FEDERAL RESERVE NOTES are negotiable debt instruments and not money and are a liability to the United States corporation which is easily verified by going to 12 U.S.C. 411. In short no debt can be paid, only discharged.

6. Neither James R. Modrall III and John M. Grogan swore or would have even been able to swear or affirm under the pains and penalties of perjury that a debt was even owed or if so how much was owed and how any debt that might be owed was to be paid since the bankers stole the American people's gold and silver and replaced it with fiat currency negotiable debt instrument currency. Accounting requires facts down to the very last penny. All claims must include up to the minute accounting. This is a requirement to collect on any debts and all parties know this.

Next we have properties stolen under a different pretext entirely and featuring the MANISTEE COUNTY TREASURER at the time. The man Russell Pomeroy who according to records was elected to office until December 31, 2020. Russell Pomeroy chose to retire on June 30, 2019. His replacement was first appointed and then elected. That replacement is a woman named Rachel Nelson who has been party to this action and has failed to respond again and again although she had a duty and obligation as the MANISTEE COUNTY TREASURER to respond.

The amount of fraud issues I can show with the latest document received while Rachel Nelson has been treasurer and mailed by Title Check LLC, a title search and notice contractor claiming to be the authorized representative of the Manistee County Treasurer Rachel Nelson. These criminal actions include fraudulent conveyance of language, threat, duress, no true bill, personage and extortion via the mail. By using word art and 3rd party fraudulent debt collectors the Manistee County Treasurers appointed agents, who have the consent of the Manistee County Treasurer Rachel Nelson, are able to pillage and plunder for profit and share in these profits. This is known as unjust enrichment and there are a multitude of felonies being committed in order for these corporations and their agents to do it. While it may be "legal" to commit these crimes and trespasses under the color of law it is not lawful to harm, injure,

damage or cause loss. Claimant is acutely aware of how this fraud is being perpetrated and has gone to great lengths to expose this travesty and criminality to include in great detail here. Rachel Nelson is required to send to me a personal letter from her office hand written and signed by her and on her corporations paper stating for the record that a debt is owed, how it came about, the contract establishing the debt and how much the debt is and how this debt if valid (claimant knows it is not) is to be paid since no debt can be paid, only discharged. A failure to respond is an automatic default. My mailing address is at the end of this document.

Claimants only regret is that it is Rachel Nelson and not Russell Pomeroy being held accountable at this time. Russell Pomeroy was the responsible and guilty party with regards to several of claimants real properties and the contents belonging to the claimant being stored in them. The claimant will now address these real properties.

The first consists of two buildings on land, soil and earth with mineral and water rights as well as rights to the air above. Of those two buildings the first was the 3 story and full basement building the claimant will refer to as the Village Variety Store generally known as 7718 Lake Street. This antique brick building had structural damage to one side of the building and water damage. The claimant had wanted to remove the second and third floors and gut and rebuild the first floor and put on a new roof to preserve this wonderful part of Bear Lake's history. This was not to be as people in the community were more interested in paying to have it torn down than helping the claimant do this work. Inside of the building were a lot of tools, inventory for the store, antique radios and so much more. There was a lot of real value being stored inside of the building.

The second building on the lot generally being known as 12407 Lynn Street was the claimant's home while a teenager. The claimant had fixed up the outside with new roof and siding. The inside was gutted and was being refurbished. This home was where the claimant was staying when he was in Bear Lake working on properties every summer after his other home was stolen by agents of Honor Bank. This building held hundreds of bolts of cloth as well as a lot of other inventory that was being stored there from the variety store next door. These items had significant value.

Both of these buildings were destroyed to the dismay of the claimant. All of the claimants hard work and investment was for naught. The PARCEL DETAIL: 51-32-221-705-05. There was a direct correlation between claimants inability to improve these properties on a more timely basis and the actions of the Manistee County Treasurer. The amount of resources extorted from both the claimant and the claimant's parents over the years using fraud by the Manistee County Treasurer is staggering to the imagination. The land is currently vacant and was for sale last claimant knew. Rachel Nelson refused to tell the claimant who was selling it and who owned it when asked about it early this year in 2020. Rachel Nelson told me she has a direct financial interest in this property which is a great concern to the claimant.

Next is the two story building claimant had completely refurbished outside to include a new roof, back wall, siding and windows. It was generally known as 12395 Lynn Street with a PARCEL

DETAIL: 51-32-221-705-07. The inside was storage for claimants property consisting of a very large collection of antiques and collectibles. The claimant has no way to even begin to determine the value of the items that had been stored there. The important pieces of note included an antique one of a kind radio featured on the cover of the SMITHSONIAN magazine. Next was an antique casket with silver handles and a wooden figure manufactured around 1890 and used by the Bear Lake Odd Fellows in their ceremonies. This was yet another extremely rare item and was probably one of a kind as I have never seen a second one available for any price. The claimant suspects these two items alone were valued at more than the building that was protecting them which the claimant had restored. The building has since been demolished and claimants property dispersed to parts unknown to the claimant. All of this harm, injury, damage and loss has a straight line leading right back to the Manistee County Treasurer's office and then treasurer Russell Pomeroy. A man in a black robe which rubber stamped this criminal activity and ignored the claimant's unrebutted claims several years ago is also party to the crime. For the record that man was not Thomas N. Brunner but was instead a much newer clerk masquerading as a judge whose name escapes the claimant right now but is in his records and will of course be on file at the courthouse. Claimant has no good way to even place a value on this property and contents.

Finally there is the old Odd Fellows hall generally known as being located at 7718 Lake Street PARCEL DETAIL: 51-32-541-702-05. The claimant brings this real property to the attention of all parties for a different reason. While the Manistee County Trustee's office did sell this property the claimant would like to discuss it. Originally the land and building which had problems created by water leaks belonged to the claimant. A private verbal contract was created between the claimant and the defendant. The claimant agreed to do a quit claim deed which has been filed into the records with the understanding that the defendant would repair the property and resolve any outstanding issues. This property and even more importantly the land it sat upon is very valuable. The agreement consisted of a single silver dollar and filing a claim for the property which the defendant never did do as well as the staggering cost which would have been required to repair and restore it to it's former glory. The defendant instead allowed this real to be taken from him by the Manistee County Treasurer thus voiding the verbal contract. The building has since burned and to my knowledge no man or woman has claimed this real property since. The claimant now puts in a claim for said real property consisting of land, soil, earth, water and mineral rights and the sky above it unless another man or woman, not a corporation, feels they have a superior claim.

In closing the claimant has gone to great lengths to explain in meticulous detail every important element of this matter. The questions still needing to be answered are above. Criminal banking elements are now moving the entire planet into a far darker dystopian society. The global economic reset will be taking place in 2021 and a new central bank digital currency which will be used to tighten the choke hold over the people of this planet and the economy is pending at this time. The claimant has great concern over the World Economic Forum's agenda being financed by criminal banking elements and the dystopian hell they plan to force upon the people of this planet for even more profit and control.

The claimant also has concerns for the safety and security of the people of Michigan, the land mass, not the corporation. The people belonging to the land have been harmed, injured, damaged and have suffered great loss. The claimant's brother Jim Leckrone has been a victim of this tyranny although not to the degree people in other parts of Michigan have suffered under. The woman acting as governor Gretchen Whitmer has been using executive orders that are running roughshod over my friends, neighbors and family members living in Michigan as well as visitors. She has treated the people of Michigan with marked disdain, brutality, contempt and has been acting without regard for the wellbeing of people subject to her dictatorship. She has gone so far outside of her legal abilities with her executive orders that even the Michigan Supreme Court has ruled against her. That alone is evidence of tyranny. Additional evidence includes several local sheriff's are not enforcing her mandates either and a real effort to impeach Gretchen Whitmer for cause is now taking place.

The claimant is entitled to set off and recoupment as well as to punitive damages. As previously stated this is a replevin action and a trover action but in far too many cases it cannot be done thus claimant seeks offers from the parties guilty of these crimes and trespasses against the claimant. This is a conspiracy of such magnitude and depravity as to point to a past, present and future dystopian society that is not acceptable to the claimant under any circumstances. The claimant is prepared to accept offers so that this matter of claimants inheritance from the JOHN KIRK LECKRONE and KAREN FAYE LECKRONE estate and trust may be settled once and for all. The claimant desires that all parties have mutual consideration, a meeting of the minds, full disclosure and two wet ink signatures or autographs of contracting parties. Let these matters be settled honorably with dignity, respect and integrity amongst men and women using truth, logic and reason.

As always truth is a defense to defamation to include slander, that which is spoken, and libel, that which is written or published.

The facts presented here and in the other previously filed claims are true to the best of claimants knowledge and belief and are based on all available evidence, due diligence, years of exhaustive research, extensive peer review, available public records and the natural law concept of do no harm. We are to love our neighbors and seek after peace, justice and cooperation using voluntarism, truth, logic and reason. Men and women have unalienable rights to property not owned by other men and women. Corporations and their agents only have duties and responsibilities as trustees and these corporations agents regularly abuse this position. Claimant expects and is entitled to remedy, cure and relief for the harm, injury, damage and loss and the return of his real, personal and proprietary property unlawfully converted. These facts are filed by John, acting as the claimant, under the pains and penalties of perjury. May peace and justice prevail against slavery, tyranny, despotism and corruption in this dystopian society.
